CalendarBox – A simple and useful calendar tool to create your own calendar.

Index
- 登入：Use it to login to the website.
- 註冊：Use it to register the account.

Platform
You can create your own schedule by 新增行程, and type the title and time in the field, the photo field and schedule detail is optional.
(btw, you can add Markdown in the schedule detail, it's a feature.)

After you add the schedule, the index will refresh and show you the schedule.
The big number in the calendar means how much schedule you have.
The small number means the calendar day.

If you want to take a look of the schedule, you can click the calendar, and click the schedule which you want to take a look, and it will show you the schedule.
If you want to remove the schedule, you can press the 刪除行程 button to remove the schedule.

Setting
